

EVPOWER

Fast Clean Energy

SITES REQUIRED ACROSS THE UK

Fully Funded Opportunity for Landlords and Developers

Ultra-Rapid Electric Vehicle charging that delivers up to 100 miles in 10 minutes.

- Fully funded by Motor Fuel Group
- Guaranteed rental income
- Guaranteed annual rental uplifts
- Blue Chip covenant
- Zap-Map EV Driver recommended network
- Increased footfall and dwell time
- 100% certified renewable energy
- Commitment to ESG strategy

MFG is the UK's largest independent forecourt operator with over 925 sites. Since 2018, the company has been installing electric vehicle chargers across its network. 2020 saw the introduction of their own EV Power brand and by 2030 MFG will have invested 400 million installing 3,000 ultra-rapid chargers at over 500 of its forecourts. Today, it operates the UK's largest open network of Ultra-Rapid chargers.

In addition to this programme, MFG is actively growing its EV Power network beyond its existing estate, incorporating EV Power Hubs within **Roadside Locations** and **Retail Parks**.

Requirement:

- Space for 4 to 12 parking spaces or a 0.2 – 0.5 acre development site
- Leasehold or Freehold

All development and infrastructure costs are covered by MFG.
