SITES REQUIRED ACROSS THE UK

Fully Funded Opportunity for Landlords and Developers

Ultra-Rapid Electric Vehicle charging that delivers up to 100 miles in 10 minutes.

- Fully funded by Motor Fuel Group
- Guaranteed rental income
- Blue Chip covenant
- Increased footfall and dwell time
- Zap-Map Best EV charging network 2023
- 99% uptime
- 100% certified renewable energy
- Commitment to ESG strategy

MFG is the UK's largest independent forecourt operator with over 850 sites nationwide. 2021 saw the introduction of the EV Power brand and within two years we have established a network of over 420 ultra-rapid chargers in c.80 locations. A further 60 locations are being added in 2023, including retail parks and roadside services.

EV Power is the UK's largest open ultra-rapid charging network and by 2030 MFG will have invested over £400 million installing 3,000 ultra-rapid chargers at over 500 locations.

We are continuing to actively grow the network and are seeking opportunities to install ultra-rapid and rapid chargers in retail and roadside schemes. We welcome the opportunity to discuss new ideas and will pay very competitive intro fees to agents.

Requirement:

- Space for 4 to 12 parking spaces or a 0.2 – 0.5 acre development site
- Leasehold or Freehold

All development and infrastructure costs are covered by MFG.
